

How to Read the Credit Class Schedule

How to Read the Schedule

At the top of each page of the class schedule is a line of column headings. Here's what each heading means:

Course Section # – The course number consists of three parts:

- Three-letter prefix for the subject area.
- Three-digit course number. (Use this number to look up the course description in the college catalog.)
- Two-digit section number. Several sections (classes) of the same course may be offered each semester.
- Sections occurring within mini-mesters (other than distance learning classes) will have three-digit section numbers. The first digit will denote which mini-mester the class is in.

For distance learning classes, special section numbers indicate the following: The letter indicates type of course:

- N – Online;**
- T – Telecourse;**
- W – TeleWeb.**

Course – Course name may be abbreviated to fit the space. See the college catalog for the full course name.

Credit – Credit hours are based on the number of hours per week the class meets and the length of the term.

Days – Days refers to the days of the week the class is held. The following letters represent each day of the week classes are held:

- | | |
|---------------|--------------|
| M – Monday | T – Tuesday |
| W – Wednesday | R – Thursday |
| F – Friday | S – Saturday |

For example:

MWF means the class meets **Monday**, **Wednesday**, and **Friday**; **TR** means the class meets **Tuesday** and **Thursday**.

Time – The beginning and ending times for the class are listed in this column.

Evening and Saturday classes are shaded with a color bar.

Room – The room number and building where the class meets. (See the inside back cover for a campus map.) The following is a list of building abbreviations used in this schedule:

On Main Campus:

ADM	Administration Building
CC	College Center
HUM	Humanities Building
FAB	Donald D. Shook Fine Arts Building
LRC	Learning Resource Center
SC	Student Center
SSB	Daniel J. Conoyer Social Sciences Building
TBA	To Be Announced
TECH	Technology Building
VAB	Visual Arts Building

Off-Campus Locations:

Off-campus location addresses can be found on the inside front cover of this schedule.

Instructor – If this reads “Faculty” it means the instructor had not yet been assigned when the schedule went to press.

NOTE: Faculty assignments may change without notice.

NOTES: Specific notes relating to an individual course appear directly under the class listing. If a note applies to more than one class, a symbol will indicate the relevant classes. Class dates are given in a color bar above the class listing.

Thumb Index – There are three colored tabs on the edge of this schedule. The top tab denotes the summer 2008 credit schedule (beginning on page 6); the second tab denotes the fall 2008 credit schedule (beginning on page 16); the third tab denotes distance learning courses (pages 44-45) and the lowest set of tabs denotes study tours and Corporate and Community Development (pages 61-63).

Fees – Only a few courses have specific course fees. Such fees are listed near the course.
